Language

English

Makinde Oluwasgun C

Software Engineer.

Innovative and results-driven Software Engineer, specializing in JavaScript and Node.js, with a proficiency in crafting captivating web API using Express. My expertise extends to Python and Flask framework in both front-end and back-end development. I have successfully created decentralized applications and written smart contracts using Solidity and Hardhat. A collaborative team player and problem solver.

Experience

Web Developer at Freelancer (Upwork)

August 2022 - Present. Remote

I'm equipped with three years experience maintaining and developing API's and server side architecture for web application using python and flask frame work as a freelancer for clients.
